

MAYERTHORPE SUSTAINABILITY PLAN

After a 1 ½ year process of public consultations and meetings of the “Citizen’s Advisory Group”, the Town of Mayerthorpe has a Municipal Sustainability Plan.

Sustainable development is defined as “development that meets the needs of the present without compromising the ability of future generations to meet their needs”. This plan is a guide for the future sustainable growth and development of the Town of Mayerthorpe over the next 25 years and is structured in such a way that the document can be revised as circumstances change.

A committee will be established to monitor the plan’s implementation and to revise it as required. This will help to ensure that the plan is a ‘living’ document and not just a compilation of paper that gathers dust on a shelf.

Our thanks to all of you who contributed to the plan in any way---this is truly YOUR plan, your document.

You can read the document by going onto the Town of Mayerthorpe’s website at www.mayerthorpe.ca and clicking onto “Mayerthorpe Community Sustainability Plan Version 151”, or by going onto the town’s Facebook page, www.mymayerthorpe.ca. Hard copies of the document can also be picked up at the Town Office.
