

PRESS RELEASE

June 5, 2017

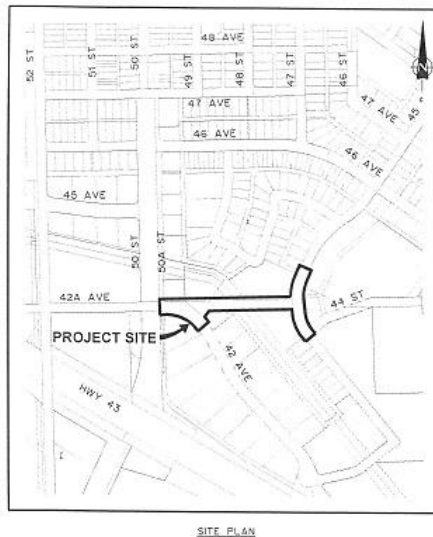

42nd Avenue and Portions of 45th Street to be Paved!

42nd Avenue east of 50th Street to 45th Street west to Mayerthorpe Healthcare Centre and 45th Street east to Pleasant View Lodge's 1st vehicle entrance will be paved this summer.

The entire project will provide for intersection improvements at 42nd and 42nd A Ave along with 16mm asphaltic cement aggregate mix design (standard is 12mm) providing a more robust surface to resist tearing of the asphalt from truck traffic. The base gravel will also have a layer of 80mm gravel below 20mm gravel complete with geotextile and geogrid to further beef up the structure.

Council awarded the tender at their March 27, 2017 regular Council meeting to E-Construction Ltd. The overall projects is estimated to cost \$819,350.00, excluding GST. Construction is earmarked to commence on or before July 1, 2017, subject to favorable weather conditions.

During construction traffic may be restricted to one lane. The public is asked to exercise patience and obey all traffic control devices during the construction.

“Citizens have asked for this road improvement and Council has delivered! This project will connect to 45th Street, provide a smooth driving surface for all vehicles travelling to Mayerthorpe Healthcare Centre, Pleasant View Lodge, and Elmer Elson Elementary School.”
