

PRESS RELEASE

December 18, 2017

Mayerthorpe Exhibition Centre Update

The winter season is in full swing at the Mayerthorpe Exhibition Centre with Mayerthorpe Minor Hockey Association, four (4) commercial teams, private teams, school skate programs, fun hockey, learn to skate, shinny, and public skating enjoying the amenities the Centre has to offer.

Council wishes to take this opportunity to update the community on reports received at our December 11, 2017 regular meeting:

- Life safety systems are operational;
- Repairs on primary equipment are complete;
- Operational & maintenance protocols are up to date;
- Ice plant software updates, programming, and installation of auto dialer notification system are complete;
- Annual inspections in compliance with insurance, building, and fire code regulations are complete.

The Centre's life safety systems are in place to offer protection and ensure the safety of our workers, the users, and visitors from exposure to life threatening dangers typically found in a building of this nature (eg. ammonia, carbon monoxide, fire, etc.).

Council was pleased to meet with users of the Centre recently and we greatly appreciate the valuable input received. Based on this input, modifications have been made to enhance access and enjoyment by users of the Centre.

With 2017 coming to an end and the promise of a new beginning, Council wishes everyone a Merry Christmas and a Happy New Year!

On behalf of Council,
Kate Patrick
Mayor
